SUMMARY

Data Analyst with 1.5+ years of experience in data collection, preprocessing, and dashboard development using Excel, Python, and Power BI. Delivered actionable insights through regional performance analysis, enabling improved inventory planning and KPI visibility. Strong analytical mindset with a focus on business-driven data storytelling.

WORK EXPERIENCE

Data Analytics Trainer, *Gen Corpus Data Hub* 12/2025 – Present | Calicut, Kerala

- Delivered analytics-focused training in Excel, SQL, Python, and Power BI to 30+ learners, emphasizing data cleaning, KPI tracking, and reporting methodologies.
- Designed industry-oriented case studies simulating real-world MIS reporting and dashboard development scenarios.
- Monitored learner performance metrics and reported training effectiveness to Technical and Department Heads.

Data Analyst, *Trunk Auto Spareparts Tr.L.L.C* 07/2024 – 12/2024 | UAE (Remote)

- Cleaned and analyzed 10,000+ transactions to identify underperforming product regions, enabling management to adjust inventory and reduce stock-outs by 20%.
- Developed data visualizations using Python to represent monthly sales, regional performance, and product categories.
- Generated actionable insights to support inventory planning and sales decision-making.

Data Analyst Intern, *Eduzell Technologies & Solutions LLP* 12/2023 – 05/2024 | Kochi, Kerala

- Executed end-to-end analytics projects using SQL, Excel, Power BI and Tableau for telecom and HR datasets.
- Automated reporting pipelines, improving data accuracy and accessibility for clients.
- Created dashboards visualizing churn and sales KPIs, aiding leadership decisions.

EDUCATION

M.Sc. in Business Analytics, 2024 – 2026

Manipal School of Commerce and Economics, MAHE

- Postgraduate program focused on business intelligence, predictive modeling, and data visualization.
- CGPA: 8.95

BVoc Data Science, *St. Thomas College (Autonomous), Thrissur* 2021 – 2024

- University Grants Commission (UGC)-recognized professional bachelor's program emphasizing 60% practical training and 40% theoretical learning in Data Science and Analytics. • CGPA: 8.4

TECHNICAL SKILLS

- **Programming & Data Processing:** Python (Pandas, NumPy), MySQL (Joins, GROUP BY), R
- **Data Visualization & BI Tools:** Power BI (DAX, Data Modeling, Power Query), Tableau
- **Data Analysis & Reporting:** Advanced Excel (Pivot Tables, VLOOKUP/XLOOKUP, Formulas), KPI Reporting

CORE COMPETENCIES

- Business Intelligence & KPI Reporting
- Sales & Inventory Analytics
- Data Cleaning & Transformation
- Dashboard Development & SQL-Based Analysis

PROJECTS

Freelance Project - Marathon Performance Dashboard (2025)

- Built an interactive Power BI dashboard for an international marathon runner using DAX-based KPIs to track pace, weekly mileage, and training targets.
- Currently expanding it into a startup solution to help athletes and coaches monitor and optimize performance, scheduled to launch in 2026.

DataCleaner Pro - Automated Python Data Cleaning & Reporting Tool

- Developed a Python-based automation tool using pandas and numpy for data cleaning and preprocessing.
- Automated missing value handling, duplicate removal, and outlier detection with summary report generation.
- Improved data preparation efficiency by ~80% through streamlined preprocessing.

Customer Shopping Behavior Analysis

- Analyzed shopping patterns of 3,900+ transactions using Python, SQL, and Power BI to identify spending trends, product preferences, and customer segments.
- Designed SQL queries for KPIs like revenue by gender, subscription impact, and product-wise ratings, and visualized insights through an interactive Power BI dashboard.
- Delivered actionable business insights that supported strategies for loyalty programs, targeted marketing, and discount optimization.

CERTIFICATIONS

Data Analysis with Python - IBM

Data Visualization in Excel Macquarie University (Coursera)

The Structured Query Language (SQL) - University of Colorado Boulder (Coursera)
